

## NEWSLETTER January & February 2018

### COMMODORE'S CORNER.

---

Well happy New Year to you all, I hope the festive season treated you all well and plenty of fishing was had by all. I know that our family managed a few hours on the water.

BIG NEWS yet again we are the holders of both the Ngawi challenge and the gloat trophy even if the later was because both competitions were blown out by the weather and we all held the Gloat trophy so get to keep it.

A great turn out in January saw our club beat Ngawi on their fishing grounds at Ngawi buy a very impressive 22.50 points average per angler. So a big thank you and well done to all that fished the day. Our club Captain Tony Kerr did a great job of rallying our troops and lead the way on the water as well.

A big Thank you to the ground crews who helped out with tractor launching and food preparation ( Jan Warren, Liz Warren, Ian Warren, Ron Beil), a good night did follow at both the after match and the warrens batch as the photo below will show.

Our most recent past commodore did manage to make a name for himself a couple of times over the break, one by

finally getting his Waka back on the water and running well, the other for over celebrating the festive season or may be pre celebration of our victory over Ngawi (not sure which)and decided to head butt Warricks tractor wheel on his return to his accommodation and did manage to spend a few ours a sleep on the ground ( K.O) followed by a visit to Doctor Warren in the morning ( who preceded to cut a rather large chunk of hair away from his head so everyone could see the hole there), he then took a trip to the hospital to be told he had concussion and then spent the following week head down at work away from anyone who knew what had happened and out of ear distance from his lovely wife. Moral of this story is when one is getting on in years one should remember when enough is enough and go home while one can still walk. I believe a set of lands lights now pave the way from house to accommodation and gin is off the agenda. Club days have taken place in both Jan & Feb with members getting out on the water and some very good fish caught, at the time of print I believe our mystery fish was caught this last comp weekend just awaiting confirmation to come through. A thank you must go out to Brendan & Liz Walker for their work with the weigh

station on club weekends a job which takes up a lot of time, So a very big thank you guys.

A presentation was made at the Pukemanu on Thursday to the life fight trust for \$4700, funds which were raised at our open fishing comp and topped up by the club and some very generous club members.

A little bit of housekeeping now around the club tractor, please take note of the following,

After launching your boat please remove your trailer from the tow ball and lock the tractor back up.

Please use your extension draw bars when you have one (to stop our tractor from going into the salt water).

When you return to land after fishing please place the tractor back in its parking spot, close the windows and lock the tractor back up( if unsure if any other club members are out, please lock up and park up).

Our club require that all boats have there name on their trailer to make identification easy should there be a trailer left on the beach late in the day.

Failure to comply with these rules could see your tractor keys removed.

While on the tractor a thank you to Ron and his able assistant George for the ongoing maintenance and care of our tractor.

The Ngawi big 3 has just finished and a well done must go out to their club for another well run event with trying weather condition.

I hope you can all enjoy a few more good weekends fishing this summer and look forward to hearing about the ones you catch and the ones that get away.

Remember to get those photos in for the photo comp.

I will leave you with some photos from over the break.

Tight lines

The daughter asks her father, "Dad, there's something that my boyfriend said to me that I didn't understand. He said that I have fantastic bumper."  
Her Dad replied, "You tell your boyfriend that, if he opens your hood and tries to check your oil with his dipstick, I will tighten his nuts so hard that his headlights will pop out and he will start leaking out of his exhaust pipe."

## Recreational Fishers

On the political front it's been pleasing to see immediate and positive action from our new government and the new Minister of Fisheries (since the announcement that MPI will be disestablished in favour of a separate Fisheries, Forestry and agriculture ministry.) It appears that our new leaders have a clear and, to Quote the PM, relentlessly positive path to resolving our shared fisheries issues. We have lamented the lack of action for 9 years and been quite concerned by the seemingly nonexistent space between industry and MPI on the direction of our shared fisheries. We now have a PM and Minister of Fisheries saying the right things - all we need is action!

When you're out for a fish keep what you need but don't just keep catching because you can. Fish are a finite resource and we all want there to be some left for next time, the time after or the first time our grand kids want to get out for a fish!

Fred and Fiona were making passionate love in Fred's Transit van when suddenly Fiona (being a bit on the kinky side) yells out: "Oh, fat boy, whip me, whip me!"

Fred, not wanting to pass up this unique opportunity, obviously did not have any whips to hand, but in a flash of inspiration, opened the window, snaps the antenna off his van and proceeds to whip Fiona until they both collapse in sado-masochistic ecstasy.

About a week later, Fiona notices that the marks left by the whipping session are not healing and starting to fester a bit so she goes to the doctor.

The doctor takes one look at the wounds and asks: "Did you get these marks having sex?"

Fiona a little too embarrassed that she had even slept with Fred let alone allowed him to indulge in her own kinky desires, eventually admits that, "Yes, I did."

Nodding his head knowingly, the doctor exclaims:

"I thought so, because in all my years as a doctor, you've got the worst case of van aerial disease that I've seen."

A golfer was involved in a terrible car crash and was rushed to the hospital Just before he was put under, the surgeon popped in to see him.

"I have some good news and some bad news," says the surgeon. "The bad news is that I have to remove your right arm!"

"Oh God no!" cries the man "My golfing is over! Please Doc, what's the good news?"

"The good news is, I have another one to replace it with, but it's a woman's arm and I'll need your permission before I go ahead with the transplant"

"Go for it doc," says the man, "as long as I can play golf again."

The operation went well and a year later the man was out on the golf course when he bumped into the surgeon.

"Hi, how's the new arm?" asks the surgeon.

"Just great," says the businessman. "I'm playing the best golf of my life. My new arm has a much finer touch and my putting has really improved." "That's great," said the surgeon.

"Not only that," continued the golfer, "my handwriting has improved, I've learned how to sew my own clothes and I've even taken up painting landscapes in watercolors." "That's unbelievable!" said the surgeon, "I'm so glad to hear the transplant was such a great success. Are you having any side effects?" "Well, just two, said the golfer, "I have trouble parallel parking and every time I get an erection, I get a headache."

This “do not use” sign was put up at the NGAWI BIG 3 on the weekend.....the organisers heard JK Was in the competition & wanted to make sure he Did’nt Pee on the floor like he does at Ev’s Bar....
